MENTORING OF JUNIOR STUDENTS 2025-26 ODD SEM

Prepared By Swati Karle

Objective:

Mentoring is an extremely crucial process through which the mentor can help the mentees to realize his/her full potential and beyond. In the mentor mentee relationship, the mentor who is a more experienced individual helps guide the less experienced individual to become aware of his/her current potential and shortcomings and then works with the mentee to help him/her go beyond his potential and work on his/her shortcomings.

The Mentoring for Junior students program will be conducted for students studying in their second year of BTech. The mentors will be students of 4th year. The mentorship aims at creating a Supportive Relationship Model between the mentor and mentee.

In this relationship, the mentor during the initial interactions identifies key areas of concern (weaknesses) and potential (strengths) specific to the mentee and draws out guidelines to address the identified areas. Mentor also narrows down the learning areas and communicates them through suitable motivation technique.

The mentee is supposed to work on the suggested modifications around the areas identified by the mentor and showcase their enhanced performance while always trying to realize his/her full potential. By the gradual up-gradation, transformation is expected in terms of overall development in the mentee. The same are closely overseen by the mentor in assessing the mentee's performance. The transformation seen in the mentee is useful in assessing the mentor effectiveness as well.

Methodology:

The program runs through four structured mentoring phases to ensure holistic guidance.

Phase 1: Know Your Mentees :

In this phase, mentors are expected to interact with each allocated mentee to understand their personal, social, and academic background. A questionnaire will be provided to guide these conversations. This phase focuses on establishing trust and building a friendly connection.

Phase_1_Mentee_Profile_Form.docx

Phase 2: Identifying Gaps and Areas of Improvement :

In this phase, mentors must hold meetings (online or offline) and work with each assigned mentee to understand the areas where the Mentee needs improvement. A questionnaire will be provided to guide these conversations and identify areas of improvement. In this phase, the mentors should:

- Co-identify up to 3 areas of improvement for the mentee
- Discuss with the mentee and guide them on what changes need to be made for the mentee to grow in the areas of improvement

Phase_2_Identify areas for self growth.

Phase 3: Monitoring and Documenting Progress :

This phase focuses on tracking the progress made by mentees in the areas of improvement agreed upon in Phase 2. In this phase, mentors are expected to support their mentees by tracking their progress regularly on previously agreed-upon improvement areas, checking on their mentees and keeping them on track and assisting them in reaching their goals.

Phase_3_Progress_Tracking_Form.docx

Phase 4: Feedback from Mentees (Final Phase)

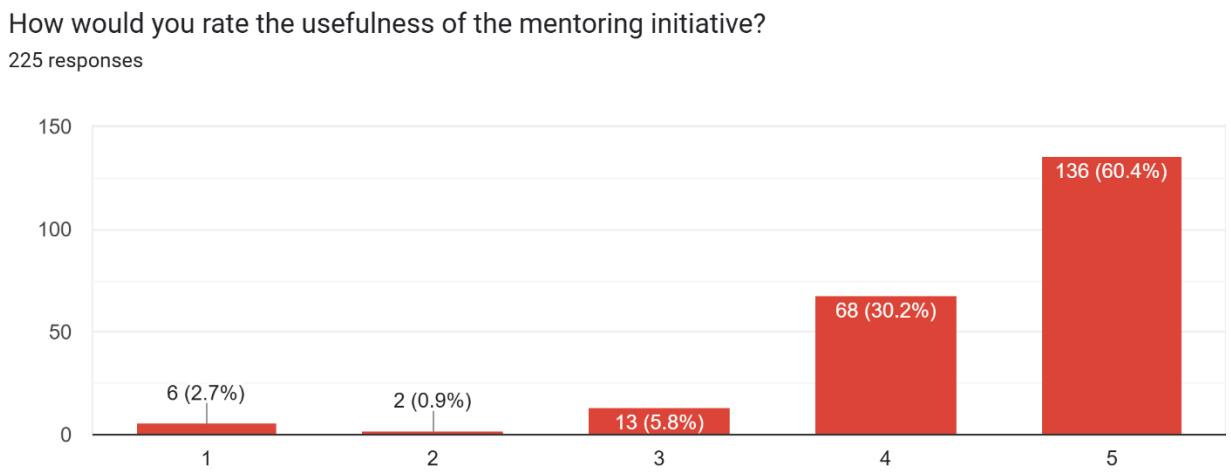
Feedback plays a vital role in assessing the mentor's effectiveness. Based on the inputs/feedback given by mentees, the mentor's involvement and effectiveness will be gauged.

Below is the list of mentors who conducted the mentoring for 2nd year students:

First name	Last name	Department
Sphurti	Asawa	Department of EXTC
Prneeka	Ballabh	Department of EXTC
Isha	Bamel	Department of Computer Engineering
Payal	Bhadikar	Department of Computer Engineering
Harshit	Bhanushali	Department of CSE (AI-ML)
Pratham	Bhanushali	Department of Computer Engineering
Vinayak	Bhatia	Department of CSE (AI-ML)
Achintya	Chavan	Department of EXTC
Atharva	Dahegaonkar	Department of CSE (AI-ML)
Hrishikesh	Dalal	Department of Computer Engineering
Ibrahim	Ganijee	Department of EXTC
Jiten	Ganwani	Department of CSE (AI-ML)
Suhani	Garate	Department of Computer Engineering
Param	Gogia	Department of CSE (AI-ML)
Eshaan	Golatkar	Department of EXTC
Ayush	Gupta	Department of EXTC
Pulkit	Gupta	Department of EXTC
Daksh	Jain	Department of Computer Engineering
Keshav	Jha	Department of EXTC
Aroosh	Joshi	Department of CSE (Data Science)
Venisha	Kalola	Department of Computer Engineering
Aryan	Kanyawar	Department of CSE (Data Science)
Shubham	Karampure	Department of CSE (Data Science)
Rashi	Lodha	Department of Computer Engineering
Shloka	Mardikar	Department of CSE (AI-ML)
Keerti	Mehta	Department of Computer Engineering
Prasham	Mehta	Department of Computer Engineering
Varin	Mehta	Department of Computer Engineering
Aditya	Mhatre	Department of Computer Engineering
Maureen	Miranda	Department of Computer Engineering
Talha	Naik	Department of CSE (Data Science)
Mayank	Nichlani	Department of CSE (Data Science)
Vaibhav	Pansare	Department of CSE (Data Science)
Akhil	Pillai	Department of Computer Engineering

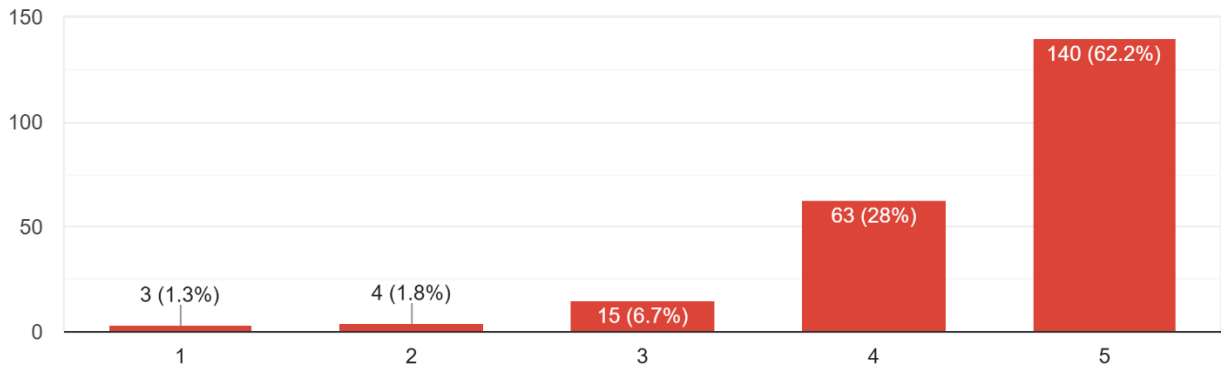
Shubham	Prajapati	Department of Computer Engineering
Urja	Saha	Department of EXTC
Prathamesh	Sanaye	Department of Computer Engineering
Aamod	Sardeshpande	Department of Computer Engineering
Asim	Shah	Department of CSE (AI-ML)
Yash	Shah	Department of Computer Engineering
Anushka	Shendge	Department of CSE (AI-ML)
Nimit	Sheth	Department of CSE (AI-ML)
Pranav	Shirole	Department of EXTC
Sanika	Sule	Department of Computer Engineering
Atharva	Tamhankar	Department of Computer Engineering
Ashish	Thakur	CSE-AIML
Vishwas	Tripathi	Department of EXTC
Soham	Vichare	Department of CSE (Data Science)

Below feedback collected from mentees shows the impact of the program conducted



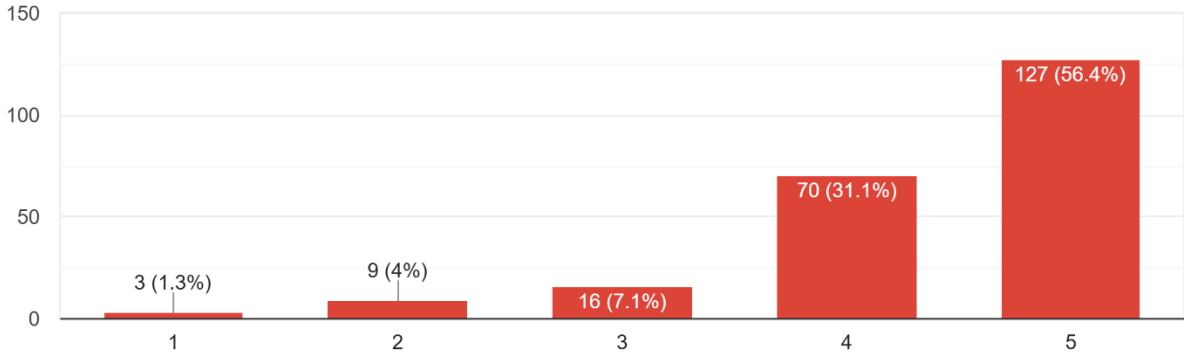
How would you rate your mentors engagement and availability?

225 responses



How beneficial was your mentor's guidance for your growth?

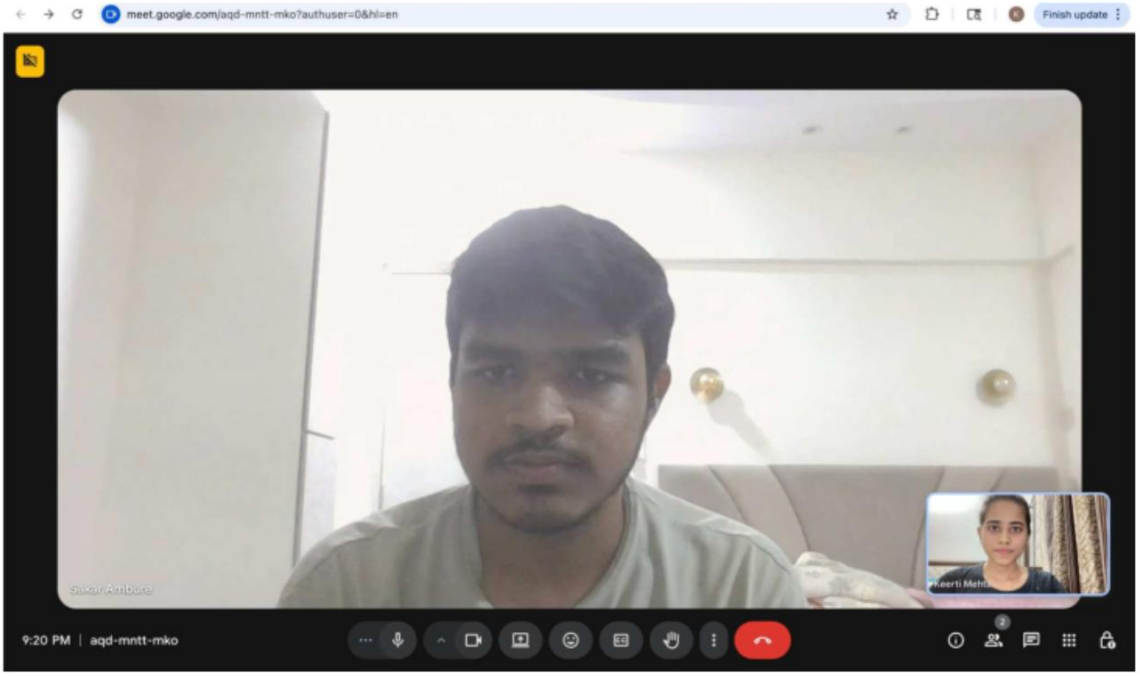
225 responses



Achintya Chavan and his group

Hrishikesh Dalal interacting with his group

Atharva Dahegaonkar addressing Direct Second year students



Keerti Mehta interacting with one of her mentees
